AKG Property Maintenance

Garden and property maintenance, Melbourne

Reliable lawn and garden care across Melbourne, within about 20 to 30 kilometres of Malvern East. I work with real estate agencies and property managers on the rentals they look after, and with homeowners who want their garden kept tidy without the fuss.

One point of contact, work done when I say it will be, and a straight answer on what a job costs before I start.

What I do

Regular maintenance

- Lawn mowing and edging
- Hedge and shrub trimming
- Weeding and pruning
- Garden beds and mulching

Tidy-ups and clean-ups

- One-off garden tidy-ups
- Overgrown garden clean-ups
- Seasonal clean-ups
- Green waste removal

End of lease

- Vacate garden tidy-ups
- Done to the agency's requirements
- Ready for the final inspection

Small landscaping

- New garden beds and planting
- Turf and lawn repair
- Mulch top-ups

The 72 hour call-back

On an end of lease garden tidy-up, if anything is flagged at the final inspection I come back and sort it within 72 hours at no extra cost.

Working with agencies and property managers

Most of my work is keeping rental properties looking after themselves, between tenancies and through the lease. Send me the address and what it needs, and I will give you a price and a day. If a tenant or landlord ever needs a gardener of their own, I am happy to be passed on.

- Regular scheduled visits, or one-off jobs as they come up.
- End of lease garden tidy-ups done to the agency's requirements.
- Photos on request, so you can see a job is done without a site visit.

Where I work

Melbourne, within about 20 to 30 kilometres of Malvern East. If you are not sure whether a property is in the area, just ask.

What it costs

Every job is quoted after I have seen it, so you get a real price rather than a guess. Quotes are free and there is no obligation.
